Experience Detail

In reversed chronological order, read below an overview from each one of my enriching work experiences and their relevant tasks.

iTech.Media [Legend 11.com] > 02/2021-10-2023

Joined as a Software Engineer; progressed to team Tech Lead

- ↳ Stack: SvelteKit, Tailwind, Storybook + Chromatic, Turborepo, AWS, Docker, Cloudflare Workers, Contentful
- ↳ Coordinated Product, Design and Engineering teams to create a Design System.
- ↳ Planned and developed a comprehensive component library based on the Design System.
- ↳ Defined, refined and estimated tasks.
- ↳ Developed, maintained and continuously released our products.
- ↳ Came up with ideas to reach our product goals: ClassGroup [1st company's open-source initiative].
- ↳ Outlined an overarching content model for our CMS implementation.
- ↳ Code reviewing and onboarding peers.
- ↳ Participated in weekly discussions to further enhance ways of working and processes.
- ↳ Built an API to connect internal services.

PulseLive.com > 11/2017-12/2020

Joined as a mid-weight Frontend Developer; progressed to Lead Dev / Frontend Architect

- ↳ Stack: Vanilla JS, Gulp, Redux, SASS, Keycloak, Redis, Freemarker, AWS: S3, Lambda, API Gateway, Cognito, DynamoDB, Kinesis
- ↳ Lead Dev for successful project deliveries: Rugby World Cup 2023/2021/2019; Premier League Player Comparison and History; Everton FC.
- ↳ Mastered SCRUM and KANBAN methodologies, deeply involved in task definition, management and delegation.
- ↳ Code reviewed and mentored junior and mid-weight developers for successful progression.
- ↳ Architected and developed both FE and BE services for the official World Rugby Predictor game: RWC2019, HSBC7S.

DesignCulture.co.uk > 01/2017-06/2017

- ↳ Stack: Gulp, Bower, HTML5, CSS3, SASS, Vanilla JS, PHP
- ↳ Organised and restructured their legacy projects in Git repositories.
- ↳ Gave maintenance and produced new features

for their different client websites.

- ↳ Scoped and planned development, as well as structuring content for several projects such as Together for Short Lives.

Exposure.net > 03/2016-09/2016

- ↳ Stack: Umbraco ASP.Net, custom CMS in PHP, Grunt, Gulp, CSS3, SASS, Vanilla JS
- ↳ Produced features and gave maintenance to Merlin Group's SeaLife, Thorpe Park & Alton Towers among other websites.
- ↳ Produced in-house app to dynamically generate DoubleClick adverts.
- ↳ Followed and applied SEO and Google Tag Manager driven campaigns.
- ↳ Architected TUI content structure for initial launch.

81 Agency > 2015-2016

As a contractor I serviced 81Agency's clients: Birchall Tea and Savvy Sand, produced and maintained their websites.

- ↳ Certified server for PCI Compliance.
- ↳ Produced custom Wordpress e-commerce plugins in PHP and Vanilla JS.

PromptDev > from 2015

Own sole trading name used to serve own international clients in the UK, France, Spain and Mexico.

- ↳ Produced and maintained websites and e-commerce sites using a mix of PHP, HTML5, CSS3, SASS, Vanilla JS, React, KeystoneJS, Heroku and MongoDB.

Savvy-Studio.net > 2010-2014

- ↳ Stack: PHP [Wordpress], HTML5, CSS3, SASS and Vanilla JS
- ↳ As Head of Web Development I pursued over 50 websites from pitch to production.
- ↳ Gained substantial UI/UX experience
- ↳ Mastered Wordpress development done right

Nrmal.net / Festival Nrmal > 2008-2014

Music blog and Event Production company evolved successful Music Festival.

- ↳ Stack: PHP [Symfony > Wordpress], Bower, HTML5, CSS3, SASS, Vanilla JS, ActionScript
- ↳ Web developer and maintainer
- ↳ Blog co-editor.
- ↳ Podcast Nrmal producer [96 episodes]
- ↳ Event Production Assistant / Stage Manager
